FINNISH BIOINDUSTRIES

Call to all the students to take part in The BioFinland Pitching Competition 2017

Finnish Bioindustries in collaboration with the Helsinki Think Company is organizing for the second time the BioFinland Pitching Competition 2017 as part of the European Biotech Week (25 Sept-1 Oct, 2017).

The aim of the competition is to encourage students to take a more positive stand towards biobusiness and entrepreneurship.

Finnish Bioindustries invites all the students in Finnish universities and universities of applied sciences (bachelor, master, doctoral, graduate school students) to participate in the competition. Build up a team (1-5 students), write your application and submit it before 15 Sept. The Jury will choose the best applications for the final Pitching Competition, which will be held in 28 Sept in Helsinki. Before the final Helsinki Think Company will organize a pitching workshop for the finalists to help them give their best on stage.

The award of the competition is 1000 €, which the team can use freely.

You can find the timetable, application form, rules and instructions for the competition on the BioFinland Pitching Competition website:

BioFinland Pitching Competition: <http://www.finbio.net/fi/pitching-competition>

Use your imagination, take a chance, and apply for the competition!
